*Announcing the Release of*  
**"A Message From St. Francis:**  
**An Ancient Mystic Speaks to the Modern World"**  
*by Cheri Harris*

*Who am I really? What is this life truly about?* These are the questions that are being asked more often each day because of the growing amount of unhappiness and dissatisfaction people are feeling in their lives. In this book, St. Francis, himself helps to clarify and answer these fundamental questions through channeler Cheri Harris. He chooses the most pressing issues we are facing today, both personally and socially, and examines and discusses each one. He shows us how our conditioning, upbringing and societal beliefs have influenced and distorted our thoughts and ideas. This deteriorating way of thinking has created negative patterns, destroyed our clarity on what is essential in our lives, and has caused us to strive for things that hurt rather than help us.

St. Francis boldly and firmly asks us to deeply reflect upon and to question our motives and behavior, pushing us to move beyond our limitations and fears. From already having experienced a human body, knowing the feeling of despair, and now being able to see the bigger picture from the other side, St. Francis' wisdom transforms and leads us on the true path of peace, love and integrity. All people, no matter what one's nationality or faith, will connect to the heartfelt energy St. Francis transmits within the pages of this book and to the down-to-earth style of writing he uses to convey his messages.

In 1980, Pope Paul the 2<sup>nd</sup> named St. Francis the Patron of Ecology and if he were still alive today, St. Francis would be considered an environmentalist. Because this book contains so many messages on nature, it will appeal to those concerned about the environment as well.

*A Message From St. Francis* will have long-term appeal since it can be used as an inspirational daily guide, like the *I Ching* or Tarot cards. Simply close your eyes and open the book to a page that feels right; you will be guided to what your soul wants you to learn on that particular day. Readers will also turn to a specific message in the book to find the answer to a current pending problem.

## About the Author

Cheri Harris, born and raised in California, left the U.S. at the age of eighteen to begin traveling the world. She has lived overseas in countries such as Bali, Indonesia (where she co-owned an international export-import business), Amsterdam, Thailand, the Caribbean, and now, Italy.

At the age of twenty-four, Cheri completed her Montessori studies and began teaching children. Later, she studied Thai Massage in Thailand over a period of ten years and received diplomas from seven different schools.

Cheri has resided in Northern Italy for the last eighteen years and speaks fluent Italian. She is a Thai massage therapist and also teaches Thai massage.

Ten years ago, Cheri's life changed drastically after she was contacted by St. Francis. He gave her messages over a period of three years for the book that he wanted to present to the world. This began a new chapter in Cheri's life. She now gratefully sees herself as a communicator, passing information from a great spiritual teacher to those who are ready and willing to hear these truths. Her highest dedication is to St. Francis and his mission, which is to make all of us more aware of our essential nature and our limitless potential.

Cheri's mission in life is to now enlighten as many people as possible to the information and truth St. Francis has shared with her. Since the author lives in Italy, she will also be promoting the book all over Europe. Cheri's great passion for the truth within St. Francis' messages will communicate well in any medium.

Cheri is now leading spiritual tours in Italy to St. Francis's most beloved places. For more information visit her website: [www.followsaintfrancis.com](http://www.followsaintfrancis.com).
